# FORMULA 222 HEAVY-DUTY DEGREASER

## TOUGH, VERSATILE CLEANER

F-222 is specially formulated to attack dirt and grease on contact, and emulsifying it to a rinsable consistency that is easily washed away. F-222 is effective at eliminating animal fats, vegetable and nut oils, and fruit juice build up, which commonly accumulate in food, brewery and beverage preparation areas.

Use F-222 to degrease floors, machines, tools and equipment. It can also be used in hot dip tanks or sprayed on soiled surfaces.

## AUTHORIZATION

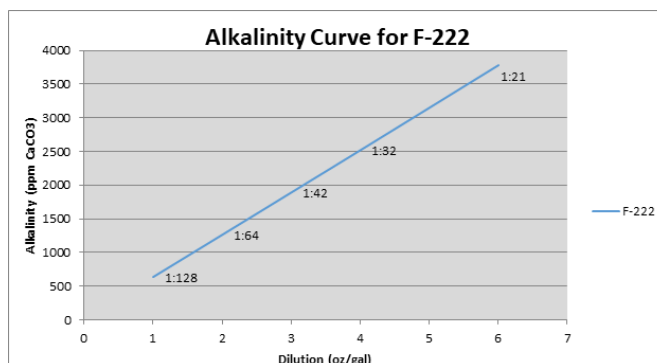

F-222 is NSF (A1), and Kosher Certified. It meets the requirements to be used in a wide range of food preparation areas, from breweries to federally inspected meat and poultry plants, as well as commercial kitchens.

## DIRECTIONS FOR USE:

F-222 dilutes for economical and safe cleaning. For best results, use with State's One Solution™ Dispensing System. After cleaning with F-222, equipment and utensils must be rinsed with potable water. Please review label for all product directions, precautions and first aid information.

## Standard Dilution Rates:

- Light-duty cleaning – 2 oz. per 1 gallon of water (1:64)
- Medium-duty cleaning – 3 oz. per 1 gallon of water (1:42)
- Heavy-duty cleaning – 4 oz. per 1 gallon of water (1:32)
- Extra heavy-duty cleaning – 16 oz. per 1 gallon of water (1:8)
- Steam cleaning – 3 oz. per 1 gallon of water (1:42)

**NOTE:** Will not harm steel and stainless metal surfaces. Because this is a heavy-duty degreaser, care should be utilized on painted surfaces for pressure washer applications. The light-duty dilution ratio should be used. Use caution on aluminum, pretest before use.

## TECHNICAL DATA:

- APPEARANCE:** clear red liquid
- ODOR:** none
- WEIGHT:** 9.31 lbs/gal
- PH OF 1 TO 20 SOLUTION:** 12-12.7
- PHOSPHATE CONTENT:** none
