

Silver Brightener

- Restores the original appearance
- Effective on all stainless items
- Removes food soil deposits and tarnish
- Contains ingredients which aid in the reduction of water spotting

Avance™ Silver Brightener chemically removes tarnish without abrasives or wear. Even ornate or etched patterns are easy to clean and restore with Avance™ Silver Brightener. Now silver and flatware can be cleaned without abrasive rubbing. Avance™ Silver Brightener is also an excellent soak solution to soften difficult food soils on flatware prior to machine processing. Avance™ Silver Brightener has specially formulated wetting agents and emulsifiers to penetrate sticky food soils, egg yolk and cheese for easy removal.

Silver Brightener

directions

For stainless, add one ounce per gallon of warm water. Soak for at least 15 minutes. For silver, line vessel with aluminum foil. Electrolytic action will quickly remove tarnish and restore original appearance.

Please review label and MSDS for all product directions, precautions and first aid information.
